November 2017
The Everyone’s Children project was set up to support and promote third sector organisations in Glasgow that provide services to children, young people and families. The project is funded by the Scottish Government and works in partnership with statutory partners and the third sector.

It aims to:

- Develop and support the local third sector capacity to deliver wellbeing outcomes.
- Ensure third sector contributions to Children’s Services are valued and strengthened
- Share learning and best practice through training and events.

The Everyone’s Children project provides a practical range of support to ensure that the third sector contribution is effectively integrated into planning of services for children and families. The project has helped to raise awareness of GIRFEC, map the contribution of the third sector in Glasgow, share learning, and support organisations through capacity building work.

CHANGE: Childcare and Nurture Glasgow East

Children in Scotland has been awarded a grant from the Big Lottery to work with people in the community, Glasgow City Council and others to look at what childcare is needed in Calton/Bridgeton, Tollcross/West Shettleston, and Parkhead/Dalrarnock and to come up with a workable way of supporting more registered places.

Its main aims are:
• To grow childcare services that best support children and their families and to include local residents in the design of these new services.

• This growth will result in more than 400 new childcare places in the neighbourhoods for 0 to 12 year olds.

• To create something that can be used for other areas to learn from.
Child Bereavement UK supports families and educates professionals when a baby or child of any age dies or is dying, or when a child is facing bereavement.

Our core activity is to provide person-centred, responsive support services which are inclusive and are not age or gender specific. We focus on a community development and regeneration approach that builds and increases capacity within the community.

We do this by providing support which encourages and nurtures empowerment. In the same way, we promote resilience through active participation in the planning, design, development, delivery and evaluation of services.

By providing a range of community based support activities and services, we aim to increase self-esteem and opportunity in an area of multiple deprivation. These services include working with families and individuals, providing information and advice (e.g. Scottish Refugee Council outreach for refugees), health services (e.g. yoga, cycling), education services (e.g. ESOL classes), leisure opportunities, a community cafe and nearly new shop.

We do this as much as possible in partnership with other agencies and with the quality assistance of experienced volunteers.

Pinkston Watersports provide affordable access to watersports to those who would not normally be able to benefit from such opportunities. In particular we work with the young people of Glasgow whose circumstances prevent them from accessing these activities elsewhere. We offer a range of low and no (funding permitting) cost activities to groups from schools, youth groups, registered charities, and other constituted community groups. We also offer courses for staff and volunteers from these organizations who have no background in watersports to train as an instructor. They then have free access to our equipment, thus reducing further cost barriers to community group participation.

Outdoor activities are increasingly recognized as a key component to healthy development, and we are ideally situated to offer opportunities that would otherwise require significant commitment in terms of travel and equipment. Pinkston is home to Scotland’s only artificial whitewater course and clean water basin, and as a facility situated in the Port Dundas area of Glasgow it is easily accessible to local communities.

At Pinkston we believe strongly in the positive impact that watersports can have on a young person’s life, and regularly see the growth of social and physical confidence, positive interaction, problem solving skills, and physical ability in the young people who access activities on site.

Over the last 33 years **Possibilities** has developed into one of the most respected voluntary organisations in Glasgow. We have a proven track record of offering support and respite to disabled and vulnerable people in our community.

We’re all about promoting independent living.

We give members with disabilities access to the resources they require and support them to grow, learn and develop so that they can achieve their goals within society rather than feel isolated in their own homes.

Our purpose-built centre at Possibilities gives them confidence to grow in a safe environment at their own pace while also encouraging them to try new things.

Our members, who range in age from 5-95 years, have disabilities in various forms and we understand that disability can limit opportunities. We go out of our way to break down those barriers.

Possibilities is able to offer support through social groups and community-led assets in a welcoming environment. This allows us to give our members what they need to allow them to participate in activities and social circles.

Scottish Childminding Association
Childminders offer a flexible and unique service as they look after small
groups of children in a domestic setting. A childminding service can often
extend to both evenings and weekends. Being cared for by a childminder
gives children the opportunity to learn from real-life experiences. Everyday
activities, like going to the shops, involvement in school pick-ups, family
meal times and visits to the park all teach children valuable life skills.

The Scottish Childminding Association (SCMA) is Scotland’s only charity
dedicated to childminding. Over 82% of childminders in Scotland are our
members and we are here to support them through the registration process
and help them to build strong foundations for their childminding business.
Our tailor-made learning programmes (including e-Learning programmes),
Helpline, business aids and publications were all created with childminders
in mind. We are the one-stop-shop for all things childminding!

The Sound Lab is a project that looks to deliver free education in music and the arts to the whole community. The main demographics of those who utilise our program are between the ages of 8-25 from areas affected by poverty and lack of opportunity.

We believe that all people should have experiences and support in order to unearth their talent, improve social skills, and develop a positive sense of themselves and of other people. We have over 13 years’ experience of providing services to some of the most disadvantaged areas of Glasgow and we know from the evidence from our programmes that our delivery model works for those that we support.

Although our main intake is young people, we also aim support groups from many other backgrounds. For example, previous events that we have ran involve Sunday Shindigs which was a programme that looked at integrating the people of Glasgow to join together and play and learn music.

Since 2003, our music and creative workshops have allowed hundreds of young people to advance their education and develop skills in a safe environment. Some of our ‘alumni’ have gone on to form their own bands, form club nights, achieving success in Scotland and further afield.
