

Looking to set up a voluntary or community service?

Applying for Charitable Status?

Need funding advice to support new or existing activity?

We can help!

Setting up a **new** voluntary or community group, service or organisation can be a bit of a maze! Which legal structure is right for you? Should you apply for charitable status or not, and where can you find funding?

For **existing** organisations the questions are seemingly endless - do you have the right policies and procedure in place to employ staff, are you complying with charity law and where can you find funding to sustain or grow your activities?

These are just some of the questions our Capacity Building Team can answer!

Our Capacity Building Officer, Phil Broadley has over 20 years of experience in supporting new and established businesses and voluntary organisations.

Phil works with people on a one to one basis, tailoring his support to your needs and helping you and your organisation towards achieving your goals and building a sustainable and successful future!

We can offer...

One to One Support Sessions

Individual, one to one support sessions to assess your needs, understand your options and guide you through the complexities of the voluntary sector.

Help with OSCR Registration
