Glasgow Citywide Directory

This directory gives information about third sector organisations and projects working with children, young people and families throughout Glasgow. It is a work in progress and more organisations will be added.

November 2019
The Everyone’s Children project was set up to support and promote third sector organisations in Glasgow that provide services to children, young people and families. The project is funded by the Scottish Government and works in partnership with statutory partners and the third sector.

It aims to:

• Develop and support the local third sector capacity to deliver wellbeing outcomes.

• Ensure third sector contributions to Children’s Services are valued and strengthened

• Share learning and best practice through training and events.

The Everyone’s Children project provides a practical range of support to ensure that the third sector contribution is effectively integrated into planning of services for children and families. The project has helped to raise awareness of GIRFEC, map the contribution of the third sector in Glasgow, share learning, and support organisations through capacity building work.

Aberlour family support service

This service works on a one to one basis and in groups in a variety of community, school and home settings.

- **Supporting families at home** by providing emotional, practical and therapeutic support to women and children who are or have experienced Domestic Abuse.

- **Supporting children in school** to improve their attainment and help them to reach their potential.

- **Supporting children and young people in their community** who are being missed by other services, by meeting them on their territory – the streets.

We offer youth clubs, planned activities, residential trips and issues-based workshops delivered in schools and clubs.

We work in partnership with other agencies to support young people access opportunities which meet their needs including employment.

We have Family support workers who will work with young people and their families to strengthen family relationships and stability for young people.
Aberlour Guardianship – Glasgow supports unaccompanied children and young people. Guardians support the young people by helping them navigate the immigration and welfare processes, and feel supported and empowered throughout the asylum process, assisting them to access the help they need when they need it, and make informed decisions about their future. Aberlour and the Scottish Refugee Council are the principal partners in the guardianship pilot.

The children and young people we help in the Scottish Guardianship Service have been through unimaginable traumas. Now, they must cope with being apart from their families in a strange, new country. They also face language and cultural barriers. In addition, the welfare and immigration system is very complicated and it can be difficult for them to understand.

These factors make it very hard for child refugees and victims of trafficking when they come to this country.

The Guardianship service works across Glasgow.
Aberlour Residential and Fostering Services – Glasgow

Our residential and fostering services are for children who are unable to live with their families. Often our children have suffered traumatic experiences at a young age, and this has affected the way they feel inside. We are there for those children, to help them to flourish.

We believe that a positive and nurturing home is the basic right of every child. We are proud to give them the best start in life, by offering safe, loving, nurturing and therapeutic care for them.

We see residential child care as a positive setting for children, where they have all the help and support they need. Our children’s houses have all the same rhythms and routines as any other family home.

We also offer foster families for those children who would be better suited to living in a different residential environment. All our foster carers are highly trained caring professions, all driven by desire to help children and young people to grow up and flourish.
The Bridges Partnership is a service that works with women and children who are currently or have previously experienced domestic abuse, and are living in or moving to the North West of Glasgow. Delivered in partnership between Aberlour and Shelter Scotland, the team work to:

Our aim is that our service users achieve better lives because of their engagement with Blue Triangle.
Scottish Book Trust is a national charity that believes books, reading and writing have the power to change lives. A love of reading inspires creativity, improves employment opportunities, mental health and wellbeing, and is one of the most effective ways to help children escape the poverty cycle.

Bookbug is Scottish Book Trust’s Early Years programme that aims to help children develop a love of books and reading by providing four free bags of books to every child in Scotland during their first five years. We also provide tactile books for children with additional support needs. Scottish Book Trust partners with libraries and community venues to run Bookbug Sessions - free song, rhyme and story sessions across Scotland. In addition, targeted Bookbug Outreach work trains early years practitioners to use activities which promote bonding, attachment, social skills and literacy in the early years.

The British Deaf Association (BDA) is the UK’s leading membership organisation and registered charity run by Deaf people for Deaf people.

The BDA delivers a range of services to achieve its aims of empowering Deaf people to overcome difficulties that they face on a daily basis.

The BDA also supports young Deaf people and their hearing families. **Deaf Roots & Pride** provides mentoring support from Deaf role models and group activities for deaf children and young people aged between 8 and 20. DRP aims to support them to see the positives in their deaf identities and to build their confidence and aspirations in negotiating key transitions and preparing for adult life.

The British Red Cross helps people in crisis, whoever and wherever they are. We are part of a global voluntary network, responding to conflicts, natural disasters and individual emergencies. We help vulnerable people in the UK and abroad prepare for, withstand and recover from emergencies in their own communities. The Crisis Education team at the Red Cross offer fully funded workshops in schools and youth work settings in areas where young people are at higher risk of experiencing a crisis related to drug/alcohol use and stigmatising behaviour. The two workshops we deliver are:

First aid workshops
- Learn essential first aid skills, including how to help someone who is: unresponsive (breathing/not breathing), bleeding heavily or burnt
- Assess and manage risks to make informed choices when helping others
- Build the confidence and willingness to help in a first aid emergency

Refugees and migration workshops
- Explore assumptions about terms such as 'refugee', 'migrant' and 'asylum seeker'
- Understand why someone might have to flee their home
- Analyse the harmful effects of unwelcoming, hostile or discriminating behaviour
- Consider how individual actions can help someone feel more welcome

Broomhill Out of School Care Association

BOSCA was founded in 1991 by a group of parents to provide after school care for their children. It is still voluntary managed by parents but now has a paid staff of fourteen. Staff encourage the children in art, crafts, drama, puppetry, music and sports and provide the toys, adults and equipment to stimulate their imagination and create their own games. To offer an even wider curriculum we have invited experts to come in and teach the children. This has included team combat, drama, street dance and Spanish. Our staff and families have introduced the children to opera, school life in Denmark, safari in Africa and scuba diving amongst other things.
Broomhill Toddler Group

We have an informal play session with lots of toys, and parent-led arts and crafts and song time at the end. Snacks are provided for the children and tea, coffee and biscuits for the adults.

Broomhill Toddler Group is a registered charity, created to provide a friendly and informal drop-in playgroup at Broomhill Church Hall for babies, young children, and their parents and carers.

Buddies Clubs & Services

Our main aim for our children and young people affected by disability is to give them the same access to play and leisure as other children and young people. All children have the right to play. This is particularly important for children aged 5-13 as this is the time they really learn to interact with their peers. Free play helps all children to develop and integrate into society. From our play situations within after school, Sunday Club and our holiday schemes our other services have been developed to meet the growing needs of our young people and their families.

The more normal lives our families can lead the more opportunities there are for them within their local communities.

The Caravan Project, which has been in operation since 1985, is a social tourism charity that provides over 600 people a year living in Glasgow with access to affordable holidays and days out. For these families a holiday is not a luxury it is a much needed break from the challenging circumstances they face at home. For many it will be their first ever holiday.

Its main services are:

Respite Holidays
The Caravan Project owns four caravans situated at the Haven’s Craig Tara Holiday Park in Ayr and provides one week respite breaks to families living in poverty and facing challenging circumstances. Everyone accessing these holidays has a range of additional initiatives to ensure their holiday is as affordable as possible including: free door-to-door transport, free passes for every family member to the entertainment complex, a big bag of fruit and vegetables worth £10 and a discount card giving families 50% off all activities on site and 15% off all other purchases. These initiatives save families approximately £200 each.

‘Big Day Out’ programme
This programme provides free family days out to a range of Glasgow visitor attractions for people facing challenging circumstances. This includes free transport and packed lunches. It is currently restricted to people living in the North West, however it is hoped that this service will be rolled out to cover the whole city in 2020.

C-Change Scotland

C-Change supports people that have learning disabilities, mental health issues and other additional support needs to have real positive change in their lives regardless of their age or circumstances. Our work is based on a Human Rights Approach, empowering people to live their life to its fullest potential whilst being active citizens within their community.

We recognise that we all need support at different times in our lives and believe our role is to listen and learn; continually developing an individual’s support to respond to where they are now and to plan with them how they want life to be in the future.

Key Principles:

• Power and control remains with or as close to the person as possible, ensuring they direct their own support

• Every person has a transparent individual funding arrangement

• As people’s needs and wishes change, their support changes with them

• Active partnership working with a person and their support network will ensure a shared understanding of their outcomes and the support that needs to be in place to achieve this.

• Working for a person in their local neighbourhood will keep the focus on them and their connection with their community.

Cranhill Development Trust

Our core activity is to provide person-centred, responsive support services which are inclusive and are not age or gender specific. We focus on a community development and regeneration approach that builds and increases capacity within the community.

We do this by providing support which encourages and nurtures empowerment. In the same way, we promote resilience through active participation in the planning, design, development, delivery and evaluation of services.

By providing a range of community based support activities and services, we aim to increase self-esteem and opportunity in an area of multiple deprivation. These services include working with families and individuals, providing information and advice (e.g. Scottish Refugee Council outreach for refugees), health services (e.g. yoga, cycling), education services (e.g. ESOL classes), leisure opportunities, a community cafe and nearly new shop.

We do this as much as possible in partnership with other agencies and with the quality assistance of experienced volunteers.
Croft staff welcome visitors and support them to have a better visit, using an assertive outreach approach. This includes giving people information about visit procedures, how to claim travel expenses and additional support that is available. Croft staff speak with a range of people at HMP Barlinnie, partners and parents of prisoners and also friends, siblings, and other relatives.

Staff and volunteers are based in the Waiting Area of the prison before most visits to speak with visitors. You can also book a support chat at the prison or on the phone if you’d rather speak with someone one-to-one or contact us via the website and we can answer your questions via email.

- Relationship counselling

We are here to support parents experiencing anxiety, depression, low self-esteem or any other negative feelings before or after having a baby.

Our specially trained perinatal counsellors and therapists are experienced, compassionate and without judgement. We also have other types of support from one-to-one psychotherapy or relationship counselling, to yoga groups and baby massage.

There’s no fixed charge for using our Bluebell Perinatal Service, but we do ask for a weekly donation for your counselling or therapy at whatever level you can afford.

If requested in advance, we can provide a free crèche.

Glasgow Care Foundation

They say good things come in small packages, and that certainly applies to us. We often describe ourselves as a small charity doing big things for Glasgow. When we say small, what we really mean is lean, you see we don't spend a lot of our money on employing a large team of people, in fact we only have one full time employee and two part timers.

Supporting our staff are our Trustees and Directors, who all volunteer their time and expertise for free. This approach to looking after our pennies means we can put as much of our funds back into helping poorer citizens of Glasgow to lift themselves out of poverty.
Glasgow Children’s Holiday Scheme

We offer children and their families holidays in one of our caravans at Wemyss Bay Holiday Park. These can be full weeks or short breaks.

The families are affected by poverty, unemployment, bereavement, kinship carers, young carers, disability, mental health and physical/illness, domestic violence, drug/alcohol, refugee and asylum status.

Some children enjoy breaks with youth groups in the caravans.

A small number have a holiday with hosts families throughout Scotland.

Glasgow City Mission

We work with adults and children who are vulnerable and disadvantaged in Glasgow, people that are often leading chaotic or difficult lives. We want to help them to break free from their oppressive situations.

That situation may involve: homelessness, addiction, poverty, family breakdown, prostitution, emotional issues, fleeing persecution overseas and now seeking asylum - or maybe all of these.

We do this through our City Centre, Child & Family Centre, and Glasgow Winter Night Shelter projects as Christians who are passionate about the people that look to us for help. We want to share a message of hope and aim to have compassion for these individuals.

Glasgow Families Together

This innovative project is funded for three years by the National Lottery. A newly formed third sector consortium (comprising Barnardo’s, Quarriers, Home-Start Glasgow North, Glasgow East Women’s Aid, Rosemount Lifelong Learning, GeezaBreak) will work closely together with Education and Glasgow City Health and Social Care Partnership to bring about systems and cultural change in how agencies work together to support families at an early stage.

The third sector consortium was formed to develop a model of practice which required agencies to work more closely together. The aim of the project is for families referred to Social Work, but not meeting the threshold for statutory intervention, to receive faster and earlier access to a wider range of support from the consortium; to prevent a crisis cycle developing, thus reducing the need for statutory involvement and intervention from social work at a later stage.

We work along side Children 1st early years and family services in Glasgow. We run advice services for family support workers and their clients; support family support workers who have complex cases; take on legal case work referrals including defending evictions, appeal to social security tribunals and take on judicial reviews and legal appeals. All clients are referred to us through Children’s 1st advice work team

GYIP is here to provide support, information and advice to young people while empowering them to contribute to the development and regeneration of our local community. Our education aims to be informal and accessible, yet relevant, honest, and informative so that our young people gain a clear and factual understanding of relevant topics; including employment, health and wellbeing, substance misuse, first aid, and equality and diversity.
12 Guitars

12 Guitars is a Social Enterprise formed in April 2019 in Glasgow by Gerry Thorogood and Steve Plummer. We provide guitars, equipment and access to tuition and support, free at the point of use to ensure that guitar playing is accessible to all young people. The benefits from guitar playing for a young person and the opportunities that can arise from playing are many. Get in touch if you want to know more about what we do or if you know of someone who you think we could support.

Currently we have been creating awareness and building up our library of loan instruments. We are converting a double-decker bus “The No 12” into a recording studio, practice studio, guitar-tech workshop, learning space and meeting place. We have two pilot projects commencing. One in Govan in Glasgow and one in Central Scotland.

Once we have completed the pilot-projects we will broaden engagement to other cities, towns and villages. We will accelerate our engagement with the Corporate sector. Whether to have a pop-up guitar donation point in the staff canteen, a fund-raising live Riff-Quiz or to offer staff volunteering opportunities, we want to develop this strand of activity.

**Intandem** provides weekly, community based mentoring to children and young people aged 8-14 who are Looked After At Home (under compulsory supervision order with no condition of residency). Intandem is funded by the Scottish government and is being delivered in 21 local authorities throughout Scotland by 13 different charities. Volunteer Glasgow is delivering the programme to South Glasgow.

Young people will be matched up with an adult volunteer who will support the young person to engage in various different activities of their choice. Intandem’s focus is on relationship building and providing the "one good adult" who will bring consistency, trust, and fun to a vulnerable young persons life. We aim to reduce social isolation, improve confidence & self-esteem and provide a protective element to each young person.

Matches are fully supported throughout their time together by an allocated support worker who will work closely with all agencies involved in the young person's life to ensure consistent care and support is provided to meet the wellbeing needs of each young person.

Since it's creation in 1975 and to this day we take a holistic approach encompassing the child, the parent/carer and the wider community to encourage the growth and development of each and every child.

**Kindred**

Our service is available to parents and carers of children with additional support needs aged 0 – 18 years. Our practice model is based on the following four principles:

**Parent-led** - Kindred is a parent-led organisation. Many of our staff are parents of children with disabilities. Everything that we do, including the way we run our organisation, is driven by the goal of meeting the needs of parents.

**Listening** - Information and services are not the whole answer to caring for a child with disabilities or additional support needs. Parents and carers need to be offered the chance to talk about the experience of disability on family life. Our practice model includes recognising that when parents or carers feel ‘acknowledged’ they are more able to cope with the challenges of caring.

**Building self-confidence** - Even the most articulate and able of parents can struggle to express themselves when it comes to care of their child. An important part of our role is to support the parent to develop confidence about caring for their child. We usually provide a high level of support at the beginning, but encourage parents to take a greater role over time.

**Non-judgemental** - We see that parents are often judged and criticised because of circumstances beyond their control, including the child’s disability. We actively avoid making assumptions about anyone who needs our service and maintain respect for parents at all times. Parents who use our service are doing their best to care for their child, often under very difficult circumstances.

Pinkston Watersports provide affordable access to watersports to those who would not normally be able to benefit from such opportunities. In particular we work with the young people of Glasgow whose circumstances prevent them from accessing these activities elsewhere. We offer a range of low and no (funding permitting) cost activities to groups from schools, youth groups, registered charities, and other constituted community groups. We also offer courses for staff and volunteers from these organizations who have no background in watersports to train as an instructor. They then have free access to our equipment, thus reducing further cost barriers to community group participation.

Outdoor activities are increasingly recognized as a key component to healthy development, and we are ideally situated to offer opportunities that would otherwise require significant commitment in terms of travel and equipment. Pinkston is home to Scotland's only artificial whitewater course and clean water basin, and as a facility situated in the Port Dundas area of Glasgow it is easily accessible to local communities.

At Pinkston we believe strongly in the positive impact that watersports can have on a young person's life, and regularly see the growth of social and physical confidence, positive interaction, problem solving skills, and physical ability in the young people who access activities on site.
Place2Be has been working in Scotland since 2001. We work with over 13,000 pupils and their families in 39 schools across Glasgow, Edinburgh, and North Ayrshire.

Place2Be offers a flexible menu of services, tailored to meet schools' needs. The typical model is based on a team of five or more Place2Be personnel (both clinical staff and highly skilled Counsellors on Placement) delivering a range of services in a school.

Primary schools: We work with children in primary schools at a vital stage of their development. We offer them support to cope with emotional and behavioural difficulties which has a positive impact on the whole class, and helps teachers focus on teaching. We also offer support for school staff and parents.

Secondary schools: Transition to secondary school can be challenging for some young people, while others may struggle to cope with specific life events or experience increased stress and anxiety during adolescence.

The Art Room: The Art Room is a Place2Be service which uses a unique approach to support children who are facing emotional difficulties. Through art-making and group work, children are able to explore their feelings, express themselves and grow in confidence in a safe, creative space.

Why work with Place2Be: We offer over 20 years' experience providing a sustainable, integrated service at the heart of the school community. Our commitment to thorough research and evaluation means we fine-tune our model to meet pupils' needs.
Platform is the art centre at the heart of The Bridge in Easterhouse. We connect local audiences across North East Glasgow with high calibre artists through a programme of theatre, gigs, exhibitions, festivals, workshops and events. We use an asset based approach to developing our community and aim to challenge preconceptions and boast aspirations.

We work with nurseries, schools and partners to develop, manage and deliver bespoke activity from touring theatre featuring some of the very best theatre makers in Scotland, to our Theatre Days giving young people a behind-the-scenes experience of a working theatre, to programmes of creative therapeutic sessions for smaller groups of pupils at ASL schools.

As part of a network of Creative Scotland funded organisations across the country our theatre and exhibition spaces offer a diverse programme of work combined with excellent-value-for-money ticket cost and special offers.

Platform works with a host of specialist partners to develop creative learning experiences that relate to a range contexts from across the Curriculum for Excellence to health and well-being. We can work with organisations to develop potential projects for all ages of children and young people.

Richmond's Hope, Glasgow is a charity that supports children and young people from Glasgow and the surrounding areas who have been bereaved.

We provide children with a safe place to work out their grief through verbal and non-verbal ways, e.g. art and therapeutic play and activities. As each child's grief is different, we provide individual support for children aged 4-18 years on a weekly basis for 40 minutes per session, with children attending at the same time each week for an average of 12 weeks.

We also offer telephone support and advice, presentations to statutory and non-statutory organisations, bespoke training, family support away days and the opportunity for children we have supported to join a peer support group. Referrals are taken over the telephone and all we ask is that the person with parental responsibilities gives consent for the referral to be made, that the child/young person is aware of the referral and that they know how the person died in an age related way.

Many of us would turn to relatives and friends for support but some families can be really isolated with nobody there to help them. Stabilising families before they reach a breaking point is key to reducing the number of children who need to go into care. An award-winning charity, Safe Families has benefitted over 6000 children since it was launched in the UK in 2013.

Volunteering can change a life

Safe Families for Children aims to build a network of support to care for children and parents facing a temporary crisis through local churches.

Churches of all sizes are meeting their own goals of engaging with their community when they get involved in providing support to families and vulnerable children in their area. Safe Families provides Family Friends, Host Families and Resource Friends to help while parents get back on their feet.

• Trustworthy homes who take children into their loving homes, giving the parents much needed space to deal with the pressing issues.

• Friendly folk who befriend, mentor and support parents through their crisis, helping them get back on their feet and making the home stable for them and their children.

• Generous supporters who find they are able to provide useful goods or skills to benefit families in need, such as a cot, clothing or helping with cooking or gardening.

The Sound Lab is a project that looks to deliver free education in music and the arts to the whole community. The main demographics of those who utilise our program are between the ages of 8 -25 from areas affected by poverty and lack of opportunity.

We believe that all people should have experiences and support in order to unearth their talent, improve social skills, and develop a positive sense of themselves and of other people. We have over 13 years’ experience of providing services to some of the most disadvantaged areas of Glasgow and we know from the evidence from our programmes that our delivery model works for those that we support.

Although our main intake is young people, we also aim support groups from many other backgrounds. For example, previous events that we have ran involve Sunday Shindigs which was a programme that looked at integrating the people of Glasgow to join together and play and learn music.

Since 2003, our music and creative workshops have allowed hundreds of young people to advance their education and develop skills in a safe environment. Some of our ‘alumni’ have gone on to form their own bands, form club nights, achieving success in Scotland and further afield.

For nearly thirty years, Stepping Stones for Families has worked alongside children, young people and families in the North East and North-West of Glasgow to give them support, opportunities and a voice in tackling the effects of poverty and disadvantage in their lives.

We support families to lay the foundations they need to take control over their own lives and engage on their terms with the wider community.

Our Family Support, Family Play, Money Advice and Family Wellbeing Services provide the resources that many parents and children tell us they need to become healthier, happier and more confident so that they can participate and take an active role in their community.

**Stepping Stones for Families – Power of Play**

Our family play service brings together isolated families who have very young children. The overall aim is to support and strengthen family and community relationships through the power of play.

Families at our family play project in Townhead are collecting warm clothing, jackets and putting together survival kits for people who are homeless in Glasgow City. The kits and clothing are dropped off to Glasgow RSVP (Rough Sleeping and Vulnerable Persons outreach team) and Glasgow Night Shelter.

Urban Roots Initiative – Community Gardening

Urban Explorers Club

Urban Explorers is an after school club for 5 – 11 year olds. Children get a chance to learn about the outdoor environment using community gardens and woodlands to understand where their food comes from and for Forest School activities and learning.

Into the Woods

Into the Woods is a Forest School holiday activity club which we run in both Toryglen and Castlemilk. We spend several days a week in Malls Mire LNR and Castlemilk woods during the holidays with a crew of young explorers.

School Grounds Projects

We work closely with primary and secondary schools and nurseries across the Southside of Glasgow. All schools are signed up to the eco-schools awards programme and we have been helping them with their journey.

Youth Projects

We have worked in partnership with various agencies across the Southside to deliver programmes for young people.
Venture Scotland offers an outdoor-based personal development programme which empowers vulnerable young people aged 16-30, who face complex and difficult problems. We build the confidence and skills of young people and aim to empower each individual we work with to make positive and lasting changes in their lives and play a positive role in their communities.

The course is split into four modules: Challenge, Discover, Explore, Leader. Each involves regular and frequent one-to-one support, structured group work and mentoring sessions aimed at addressing key areas of personal and social development, including communication skills, confidence, attitude, responsibility, problem solving and teamwork.

We believe that by helping a young person to increase their capacity in these areas, we can enable them to tackle the barriers that are holding them back and help them to build a positive future. The amount of regular contact our programme enables between our staff, volunteers and young people enables strong bonds to be formed where young people’s behaviour can be challenged in a supportive environment.

At The Village Storytelling Centre, we use the power of storytelling to bring people together and to provide a space for creativity and relaxation.

We use storytelling to support people to increase their confidence and self-esteem by fostering the belief that each of us has stories to tell and that they are worth hearing. We offer people the opportunity to look at their lives differently, to understand that the stories we have always told ourselves or been told about ourselves aren’t set in stone – we can change and shape them.

Story is an excellent way for people to reflect on their situations through the safety of fiction, inspiring them to reframe the past and imagine positive futures. Stories are what happen to us, they’re what we do, and they’re who we are and who we want to be. Storytelling is our way of making sense of the world around us and of finding our own unique voice.

With Kids Glasgow

Our work is child centred and recognises that all families regardless of background can have difficulties but may not know how to access the right support. There may also be concerns that asking for help will result in unwanted intervention. Our services aim to provide children and their parents/carers with the tools to manage their lives effectively. Central to this work are the core concepts of building self-esteem and resilience in children and supporting parents in managing this.

Many the issues can be traced back to generational problems from early childhood, this is supported by developments in psychology and neuroscience. With Kids is based on a preventative approach that involves early intervention, working in tandem with children and families to enable the best life chances possible.

Zoo-Ed was an idea born out of passion for both animals and education. We believe that the best way to learn about the animal kingdom is to experience handling the animals for yourselves.

Our key aims are to improve children's listening and behaviour skills in order to enhance their educational attainment and to promote self-esteem.

Animals are a highly motivating subject for school children and by the time children start school, almost all children will already have had some sort of real-life experiences of an animal(s). These early life experiences can have long-lasting effects on attitudes and behaviours towards animals.

Zoo Education C.I.C. provide children with a platform to discuss their experiences and thoughts surrounding animals. Through story-telling (young children) and through our contemporary science and social workshops, children are encouraged to recognise animals as sentient individuals.

These positive interactions will help children develop greater empathy and compassion for animals, which will then help them develop their social skills, leading to higher levels of self esteem and eventually to experience greater academic success.
