

# Glasgow Community Support Around Covid19

Covid19 is impacting us all. People are concerned about their families, friends and communities. Thankfully many people in all sorts of ways are working together to support each other.

[GCVS](#) has pulled together this directory specifically to highlight where there are additional services that people can access at this time or where there is spare capacity for new clients. (We are not sharing details where services have no extra capacity). Please share this directory widely and use it to connect people with supports.

We will keep the directory updated as frequently as needed so if you have a support that could be included please send us the information via this link: [Community Supports Around Covid-19 Survey](#).

- Are you providing support to people around Covid19?
- Have you set up a new service to deal with what is happening?
- Can your group or organisation support new clients?
- Do you have services with spare capacity?

If we have included your support already and details change, eg you can no longer support new people or if you have any questions, please email [CLD@gcvs.org.uk](mailto:CLD@gcvs.org.uk)

GCVS will circulate new versions of the directory via our [website](#), twitter (@GlasgowCVS) and our newsletters & mailings. Sign up to those on our website.

Many thanks for your support and so glad to be working together

We are looking to partner with other organisations in order to help deliver support to these families. Specific concerns emerging include: money for and access to food, fuel poverty, access to internet for online school resources and social contact, kinship carers who fall into high risk category and can not leave house needing to look after children/young people 24/7 for min next 3 months. We are offering to deliver food and prescriptions where needed, find funding to help families with fuel poverty and campaign and discover ways in which families can access internet at a low cost or free. We will also be running regular online activities, e.g. drop in cafe, fun daily challenges, quiz nights, storytime and more as ideas and suggestions are put forward.

<p><b>Types of Support Offered</b></p> <p>Food or shopping delivery</p> <p>Reducing social isolation</p> <p>Emotional and mental health support to families throughout time of school closures</p>	<p><b>Specific Support Around Covid19</b></p> <p>We aim to continue working in our partner schools who are offering support to vulnerable children following school closures. Whilst possible we are continuing to run our family support services by meeting individual parents. We will be developing digital resources such as keep fit classes, cookery events etc which will mimic the parent/family support we currently offer. We will also develop a range of digital resources/activities that help parents and children to connect playfully throughout this difficult time. We will maintain phone, facetime contact with children and parents and develop resources whose aim is to support mental health of parents and children alike. We are hoping to support families with food parcels and resource packs and may or may not need to seek additional funding to develop this further. In Wester Hailes we are partner services with the Health Agency and will be delivering community support in tandem with them in the form of food parcels and practical support.</p>
<p><b>Geographic area covered</b></p> <p>North East Glasgow</p>	<p><b>How can people access the support?</b></p> <p>Currently we don't have capacity to take on additional referrals. We are however happy to collaborate with other organisations to provide required support.</p> <p><b>If a referral is needed from a partner, who can do this?</b></p>

	<p>In ordinary times we take referrals from the schools we are based in. Where funding exists we are able to take referrals from social work, cahms, health visitors, parents etc. Our staff are currently at capacity.</p>
	<p><b>Any other information</b> As time goes on and we have developed our digital resources it is very likely that we will have capacity to support other children/families or other organisations. We are happy to collaborate.</p>
